## WILL ASK FOR GRANT

### FOR PROVINCIAL CELEBRATION

Committees of City Council and Board of Trade Getting Down to Business.

The committees representing the city council and the board of trade in the preparation for the inaugural celebration met in the council chamber yesterday afternoon. Messrs. J. A. McDonald, A. T. Cushing and F. T. Fisher were present on behalf of the board of trade. The Mayor and A. L. Board represented the city council. The Mayor acted as chairman and F. T. Fisher as secretary. It was agreed that September 1st was the best day for the celebration. An informal discussion took place on the unfairness of the grant of \$5,000 to Regina and nothing to the province of Alberta, and it was decided that an effort should be made to secure a grant from Premier Haultain for this provincial celebration.

On motion it was decided to invite the Governor-General, Premier Laurier, the leader of the Opposition, Dominion Cabinet Ministers, Lieutenant Governors and Premiers of all the provinces, Dominion members of Parliament for Manitoba and British Columbia, the members of the North West Legislature and the mayors of all the towns in the province of Alberta, the invitation in each case to include lady, these people to be the guests of the city of Edmonton during their stay in the place.

On motion of Messrs McDonald and Cushing it was decided to ask the C. P. R. for a single fare, or better rate from all points in the Territories to Edmonton, tickets to be good from August 30th to September 5th. The Secretary of the board of trade was made permanent secretary for the celebration committee.

It was decided to wire Hon. Frank Oliver informing him of the plans and requesting him to arrange for Mounted Police and also to secure from the Militia Department arms and equipment for fifty men. The Minister of the Interior was also requested to invite the Governor-General and Dominion Cabinet to attend the celebration.

The nature of the demonstration was discussed in an informal way. It was suggested that the morning be taken up with the ceremony of swearing in the Lieutenant-Governor after which a procession might be formed on the plan of a kind of march past.

The question as to whether the speaking should be in the open air or in the rink was also discussed. With the weight of opinion in favor of the open meeting, probably in front of the grand stand on the exhibition grounds.

The suggestion was offered that a polo tournament be arranged for the afternoon and a grand ball for the evening. Nothing, however, definitely mapped out. The committee is open for suggestions, and decided to add to its numbers. The next meeting will be held in the council chamber tonight.

## MEDICAL ASSOCIATION

A special meeting of the Northern Alberta Medical Association was held last evening in the council chamber, the retiring president, Dr. Ferris in the chair. A paper on Uremia and a report of five cases was submitted by Dr. Whitelaw and discussed by all the members present. Nomination and election of officers for the ensuing six months was then proceeded with, resulting as follows:

Honorary president—Dr. McNeil.  
President—Dr. Harrison.  
Vice president—Dr. McIntyre.  
Secretary-treasurer—Dr. Whitelaw, (re-elected).

Members of committee—Dr. Clendenen, Dr. W. A. Wilson, Dr. Smith.

## FINISHED BUSINESS

### WAITING FOR THE SENATE

The Commissioners Have Concluded the Business of the Session—Pro-rogation Tomorrow.

Ottawa, July 18.—The Commons finished its business today and is waiting for the Senate. The bills affecting indemnity and salaries were all passed. In the Senate on the Alberta Autonomy bill, Senator Longheed moved that the educational clause be struck out. This was lost, 8 voting for and twenty-seven against, majority 19 for the Government. The Saskatchewan bill was put through on the same division.

Ottawa, July 18.—The Senate adjourned at 2 o'clock but it has considerable work yet to do and pro-rogation does not seem possible before Thursday.

## BASEBALL

Last evening the Purchase Boarding House played a game of base ball with the Ross Bros. employees on the east end ball grounds. The game only lasted five innings with Ross Bros. the winners by a score of 6 to 4 and an inning to the good.

Flushed with victory the winning team challenged the crowd and nine players were selected to meet them, among the number being Maloney, of the Capitals. The second game had to be called at the end of two innings, as it became too dark to play, but this time Ross Bros. were the vanquished, being beaten by a score of 2 to 0.

The line-up in the first game was as follows:

Jardine	c.	Kemp
Nixon	p.	Wilson
Price	1b.	Howard
Moore	2b.	Case
Smith	3b.	West
Morris	s.s.	Clark
McJannett	r.f.	Thompson
Morris	c.f.	McLeod
Kanton	i.f.	Kemp

This game was umpired by Pat Maloney of the Capitals to the entire satisfaction of even the spectators.

## MONEY BY-LAWS.

On August 14th the ratepayers will be asked to endorse bylaws authorizing the city council to borrow money for various public works aggregating \$63,500. The sum is a large one and it is to be hoped the council will take every means to thoroughly inform the citizens of the purposes of the amounts asked for.

The items comprising the total are:

By-Law No. 23	\$ 8,000
" " 24	30,000
" " 25	15,000
" " 26	3,500
" " 27	2,500
" " 28	6,500
" " 29	6,500
<b>Total</b>	<b>\$63,500</b>

Bylaw No. 23 provides for the sum necessary to pay the city's share of the cost of construction of the new cement walks being laid along Jasper avenue from Fourth street to Klondike avenue. The contract for this work was let to W. J. Carter some time since for \$28,323. One quarter of this is to be borne by the city and three-quarters raised by frontage tax on the property fronting on the walks.

Bylaw No. 24 calls for \$30,000 for market extension and improvement. While no definite statement of the proposed details of expenditure has been made, it is understood this amount provides the money necessary to purchase the remaining portion of the block in which the market is located, and would leave a balance on hand for the erection of suitable buildings or other needed improvements.

Bylaw No. 25 provides for borrowing \$15,000 for electric light extensions and improvements. It is understood that \$10,000 of this is needed to make up the amount of former appropriations which have been over-run, the remaining \$5,000 being the cost of the new or light system.

Bylaw No. 27 is for \$3,500 the amount necessary to erect the proposed isolation hospital on the property of the public hospital between Klondike and Boundary avenues.

Bylaw No. 28 provides for \$2,500, the sum necessary to purchase from Alberta College the land used as a roadway down the hill from the foot of McDougall street.

Bylaw No. 29 is for repairs and enlargement to the firehall and additions to the equipment. These alterations were contained in a report presented some time since by the committee in charge of the Hall and provide for:

- 1 A new alarm bell swung in a steel tower.
- 2 A new chemical engine of two-hundred gallon tanks.
- 3 Team for chemical engine.
- 4 Driver for chemical engine.
- 5 Installation of a testing pump.
- 6 Installation of a lavatory and bath in the hall for use of the members of the brigade.
- 7 Tearing out the cells of the old police station and remodeling this for stable purposes.

While the objects of several of these proposed expenditures are fairly well understood by the citizens, no definite public statements have been made regarding the sums asked for market extension or electric light improvement. As these sums aggregate nearly three-quarters of the gross amount an explanation of the circumstances and purposes of each is quite desirable from the public standpoint.

# DAIRY BY-LAW

## PROVISIONS AND REGULATIONS

The Aim is to Give Pure Untainted Milk to the Public—Severe Penalties For Infraction of the Law

The stable regulations in the new dairy by-law, which the milk men complained, on Monday evening, were of such a nature as to require more time to meet, and the council decided that they be properly carried out before the time for housing the cows for the winter. The regulations read as follows:

### SANITARY STABLES

(a) All cows giving milk for sale by such vendor (hereinafter referred to as the milkman) shall be clean and free from filth in regard to the udder.

(b) The stable or stalls in which any such cow is kept or housed or in which it is milked shall be kept clean, light and well ventilated.

(c) Such stable shall be lighted by a window or windows of no less than eighteen inches square or two and one-quarter square feet for each four cows or any number of cows less than four if less than that number is kept.

(d) There shall be in each stable not less than two hundred cubic feet of air space for each cow, and the ceiling, roof or floor above the stable shall be at least seven feet in height, that is above the stable floor.

(e) Each such stable shall have a ventilator constructed of a sectional area throughout of at least one square foot for each ten cows kept in the stable, with a similar proportion of sectional area in such ventilator for a greater or less number of cows.

(f) The stable floor shall be made of cement, brick or wood, or some other similar material, and shall be at least eight inches above the surface of the ground.

(g) Such stable shall be white-washed with a lime wash each year, and shall have been so white-washed not more than two months prior to the granting of a license hereunder.

(h) Drainage must be provided for every such stable so that no accumulation of water or liquid can take place within or underneath or within ten feet of the stable.

(i) Each stable or dairy shall be provided with an adequate supply of good pure water.

### MILK CHECKS

The clause referring to milk checks reads: "The milk checks supplied to customers by the milk vendor shall be made of metal and shall on being returned to the milk vendor be boiled in boiling water before being given to other customers."

The opposition urged was the cost. The council considered the cost of checks but slight and decided that in the interests of health the clause should stand.

### MILK INSPECTION

The clause referring to inspection of milk reads as follows:

"Any milk vendor or person delivering milk to customers in the city, shall, upon request of the Health Officer or Veterinary Inspector, or any of their assistants, permit a sample or samples of milk being so delivered, or intended to be delivered to be taken for examination upon payment or tender of the value of such sample or samples."

As the aim was for pure milk the council refused to fix any standard as if they did there would be nothing to prevent the dilution of rich milk to bring it down to the standard.

### MANNER OF INSPECTION

Some of the other important provisions of the by-law are:

"It shall be lawful for the Veterinary Inspector to enter in and upon all such cow sheds, dairies and other buildings, farm or dairy yards, or other places used by such vendor of milk, or from which he obtains or intends to obtain same, and examine and inspect the said premises, the cattle therein or thereon, using for such inspection the Tuberculin Test or such other test as may be deemed necessary or expedient, and he shall also inspect stables and premises and all appliances and milk vessels used therein for containing milk."

### CLEAN MILK HOUSE

"The house or room in which milk is kept shall be at least ten feet from the stable or that part of any building in which any animals are kept, and in case the milk-house and stable are connected or under one roof, then they shall be separated by a room with air-tight partitions and having two doors at least ten feet apart, one entering to the milk-house the other to the stable, and such intermediate room to be well ventilated, so that the air from the stable may not flow to or enter the milk-house. No milk-house shall be allowed within twenty feet of any water-closet or manure heap. Such milk-house shall at all times be kept clean."

### CLEAN DISHES

Toronto, July 19.—Wm. Whyte is in Montreal consulting with the C. P. R. management regarding annual harvest excursions to Manitoba and the Northwest, and an early announcement as to the date of the excursions may be expected. Dates will depend on the time of ripening of the grain as the railway does not wish to put laborers in the West before the service is needed. It is said 20,000 men will be needed for the harvest, which is twice as many as have been called for previously. Excursionists from the Maritime provinces will be moved first in order to get the cars back to Ontario. The C. P. R. is making special efforts to handle the traffic this year.

The verdict censured the building inspector, architect and contractor and declared that the labor temple which fell on the house was unsafe, and succumbed to the force of the gale, and recommended the city to look after these things better in future.

—A fine sample of new potatoes grown in the garden of A. Prince were left at the Bulletin office this morning.

—Calgary Herald: Hon. F. W. G. Haultain spent Friday and Saturday with friends in the city, leaving yesterday morning for Regina. The Premier has accepted an invitation to attend a garden party in the Nose Creek settlement on Thursday afternoon, after which it is his intention to visit Northern Alberta.

C. E. McPherson, general passenger agent of the C.P.R., with headquarters at Winnipeg was in Calgary Monday en route to Banff. He remarked the heavy traffic and said that business was better than at any time in the company's history. Mr. McPherson said that the Portland fair crowd was passing through Western Canada, largely east bound. Under the passenger association agreements it is possible for a passenger to purchase a ticket in the States going over one road and returning by another route. Taking advantage of this, traffic is largely east bound through Canada from Portland. The Prince Albert and Edmonton lines show a good business this year and the homeseekers from Ontario are unusually numerous. Mr. McPherson thinks Calgary business is steadily increasing.

#### The Cream Separator that is the Cheapest in the End.

There are some folks who are everlastingly trying to get "something for nothing." They buy a wagon at a "bargain" price because the agent says it's "just as good." And then, after a few months, when the tires and spokes have all loosened up, they cuss the wagon.

Price not the only Difference.

It's the same way with cream separators. You can buy many other separators for less money than the U. S. Cream Separator sells for, but before you've finished paying for the experiment you'll find price isn't the only difference. The cheaper separators soon get out of adjustment because built of cheaper material by inferior manufacturing methods; they consume twice the necessary amount of oil; they have a bowl that will not run true, and does not skim clean. The repairs in the first few years would pay the difference for the U. S. Cream Separator.

Durability is Important.

The U. S. Cream Separator has stood the test of time. Many of them have been in use for 10 years, and cost less than a dollar for repairs. They run easy, skim cleaner than others, have a simple bowl, enclosed gears, and a convenient low supply can.

The Vermont Farm Machine Co., of Bellows Falls, Vt., have printed in a handsome booklet a few of the thousands of letters from satisfied users of the U. S. Cream Separator. This booklet will save you money when you buy a separator, and a post card will bring it to you.

To insure prompt deliveries and to save freight charges for their Canadian customers, they ship from their warehouses at Montreal, Sherbrooke, Hamilton, Winnipeg, Calgary and Vancouver, but all letters should be addressed to Bellows Falls, Vt.

## WESTERN NEWS NOTES

—The Canadian Pacific had a big year. For nine days in June, the C. P. R.'s gross earnings were \$1,390,000, or 13,000 more than in the corresponding period a year ago, and \$27,000 more than in the like period two years ago for the whole month of June, 1905, the increase over June, 1904, was \$11,000.

—Moose, July 15.—The coroner's inquest on the body of George Steen was held yesterday afternoon. After the evidence had been submitted, the jury returned a verdict to the effect that the death of Steen was caused by a blow administered with a stick of wood by R. G. Summer, and reported Summer was guilty of manslaughter.

—Macleod Gazette: The crops in the surrounding country are all in excellent condition. Mr. Robertson, who lives to the south of the town a couple of miles, has an excellent crop of fall wheat; indeed it is the opinion of all that it is the finest ever seen in this section of the West. Lee Evans has also a good crop which will be ready for the binder in two weeks. From all around the prospects are very encouraging and we will hear the merry hum of the reapers in a very short time. The neighborhood of Macleod has a good crop coming to it and we are going to get it this year.

—Wednesday afternoon at about half past three o'clock John Spens an Italian miner employed at the Lilje Collieries of the West Canadian Collieries Company of Frank, was instantly killed. Spens and his partner were working in the south gangway of the No. 1 mine at Lilje and had put in two holes and had fired them. One shot exploded and Spens was under the impression that the other shot had not been lit and in spite of the persuasions of his comrade went back to see. Just when he reached the face the shot exploded mangled him fearfully and nearly tearing his head off.

—On Tuesday forenoon at about 11 o'clock another fatal accident took place at the mines of the Canadian-American Coal & Coke Co. at Frank, the victim being William Carmichael, a timberman. Carmichael and W. Carruthers were working as partners and were engaged at the time of the accident in timbering the coal chute in No. 12 manway. The chute being clogged they went down to investigate. Carruthers returning to give notice to anyone not to travel the manway until they had got through with their work. During his absence the coal in the chute started breaking its way into the manway above Carmichael and burying him up.

—Macleod Gazette: W. F. Parker, who lives about four miles down the river, brought in news the other day of a somewhat startling nature. He had found in the river opposite his place a horse and buggy, but no sign whatever of the driver. The horse had been dead for some time. An investigation followed and the facts were brought to light. A gentleman from Cardston district, who had been up north looking for land. While attempting to cross Willow Creek, got into deep water and he and the buggy were separated. Fred Touchette threw the man a rope and he was saved, but the horse and buggy were swept away.

—Lethbridge News: Word was brought to town Tuesday that the body of an unknown man had been found lying in the shallow water in the St. Mary's River just opposite Fort Whoop. Though the body was in a bad state of decomposition there were many evidences that he was a cowboy and that he had been the rider of the horse that was found drowned near Lethbridge some two weeks ago. Indeed there seems little room to doubt this as the drowned man when found had no trousers on and his shoes and socks were also missing and these articles were found fastened to the saddle of the drowned horse.

—Now that the autonomy bills have become law, the committee organizing the celebration at Regina has again got down to work. The bills come into effect on the 1st of September, but the organizers have chosen the 1st of September as the date of the celebration. Inquiries showed that the 1st of September would be altogether a too inconvenient date whereas the 4th being Labor Day, a wide-spread holiday, was found to be best fitted for the occasion. The date was not fixed without consultation with Ottawa, and it was found that the day was as convenient as

—Regina Standard: A human skull, buried beneath the surface of the earth was yesterday dug up on the old Woodward homestead, just north of the city on Albert street. The skull was beneath the earth about two feet and was found when the lessee of the place was digging to get at his cellar which had caved in. It was found about half under the house and half out. Though Mr. Leach, who lives in the house did not dig together it is believed that the bones of the skeleton will be found. There was around the skull a substance darker than the earth, and which it is thought, is the decayed flesh or bone. The police will take charge of the matter, and a medical man will make an examination of the find, to ascertain what he can about its age. It is perfectly bare of flesh and is as smooth as a ball. It appears to be damaged in no way.

—A gang of eighty men are working on the sewers in Strathcona. The sewer pipe has unfortunately got side-tracked somewhere and so far cannot be located. Some of the trenches that have been dug are in danger of caving in and if the pipe is not procured soon there may be serious loss to the town.

—Mr. E. H. Gross, an experienced florist from England, is going to build a green house on Ninth street west. The building will be sixty feet long by twenty-five feet wide and will be devoted to the culture of flowers and plants. Contractor Page has the work in hand, and it is expected the building will be ready for occupation about the middle of September.

—E. Ncher this morning left at the Bulletin office a fine sample of tame strawberry grown in his garden in the east end of the city. The "patch" is a small one, comprising only one hill planted for experiment. In former years the plants did not bear, devoting their energies to sending out runners and runners. This year these were kept picked off and thirteen fine berries now adorn the vines. Mr. Ncher is confident two crops per year of splendid berries can be grown here with the exercise of care.
